FOR IMMEDIATE RELEASE

ADS EXPANDS REACH IN
CANADIAN MARITIME PROVINCES WITH NEW
DISTRIBUTION YARD IN MONCTON, NEW BRUNSWICK

HILLIARD, Ohio – **(April 29, 2013)** - Advanced Drainage Systems, Inc. (ADS) newest distribution site has opened in Moncton, New Brunswick. The stocking yard increases the local availability of the company's products in and around New Brunswick, Prince Edward Island, and Nova Scotia. Supply for the yard comes from the company's manufacturing plants including Heidelberg, Ontario and St. Germain, Quebec.

Founded in 1966, ADS is the world's largest manufacturer of corrugated plastic pipe. ADS products are found in farms, sports stadiums, golf courses, highways, building complexes, housing developments, industrial parks, airports and the infrastructure of cities and towns throughout Canada and the world.

The new Moncton yard is part of ADS' on-going multi-million dollar capital investment program announced in 2011 to add pipe production and inventory capacity. ADS has a network of 57 manufacturing locations worldwide, and now, 29 stocking service yards.

THE MOST ADVANCED NAME IN DRAINAGE SYSTEMS

"Moncton is critical to this area because it is at the geographic center of the Maritime Provinces, and is even called 'Hub City'," stated Ewout Leeuwenburg, ADS Vice President of International Operations. "We will make full use of its excellent transportation system including the rail network. Demand for our products to control storm water continues to rapidly increase, and ADS is keeping pace by establishing local manufacturing and distribution centers in Canada. In January, for example, we opened a yard in Morrisburg to add service and supply specifically to the Ontario area."

For additional information call ADS at (800) 821-6710, go to www.ads-pipe.com or contact any local ADS office.
