ADS OPENS NEW DISTRIBUTION YARD IN
MORRISBURG, ONTARIO

Stocking Distribution Site Adds
Service and Supply to Ontario Area

HILLIARD, Ohio – **(January 21, 2013)** - Advanced Drainage Systems, Inc. (ADS), the world's largest manufacturer of corrugated plastic pipe, has opened its newest product distribution site in Morrisburg, Ontario. The yard located on County Road 31 has already increased the local availability of the company's products in and around Ottawa and Southeastern Ontario. Supply for the yard comes from the company's manufacturing plants including Heidelberg, Ontario and St. Germain, Quebec.

"The reason for this expansion," said Ewout Leeuwenburg, ADS Senior Vice President of International Operations, "is because of the strong demand for our agricultural water management pipe products and our other products used in storm water and sanitary sewer systems. Not only will we be shipping from this site using our trucks, but contractors can also pick up what they need, when they need it."

ADS products are found in farms, sports stadiums, golf courses, highways, building complexes, housing developments, industrial parks, airports and the infrastructure of cities and towns throughout Canada and the world.

THE MOST ADVANCED NAME IN DRAINAGE SYSTEMS

The new Morrisburg yard is part of ADS' on-going multi-million dollar capital investment program announced in 2011 to add pipe production and inventory capacity. ADS has a network of 56 manufacturing locations worldwide, and now, 28 stocking service yards.

For additional information call ADS at (800) 821-6710, go to www.ads-pipe.com or contact any local ADS office.
